ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: WOOD FLOORING WITH LAMINATED WOOD AND PLASTIC LAYERS USING SYMMETRIC STRUCTURE
AND METHOD OF MANUFACTURING THE SAME

(57) Abstract: It is provided a wood flooring
having laminated wood and plastic layers
symmetric to each other and method of
manufacturing the same. The wood flooring has
an upper layer including laminated wood, a core
layer including plastic sheets manufactured by
calendaring, and a lower layer including veneer
board, the lower layer being made of the same
material as the upper layer, which are piled
up symmetrically in order to keep the balance
between the upper layer and lower layer, and
then integrated under a constant temperature and
pressure to form a suitable layers made by wood
and plastic, thereby providing natural feeling
in surface and solving the problem of distortion

according to the change of environment.
